

steam shower and whirlpool bath

Avondale 1500

1500mm x 900mm x 2180mm

The Avondale 1500 has all the features you could want in a shower cabin - huge 25cm monsoon rain top shower, hand shower and riser, back jets and of course powerful 3kw steam generator. The shower has ceiling lights, and interior and exterior LED lights too. The back inside walls of the cabin are darkened mirror glass and create a truly luxury feel against the crisp white base and metal frame. The side walls and doors are tinted glass. The Avondale 1500 can also be used as a bath and even has a headrest ready for when you do. Put your favourite radio station on or connect your MP3 player and relax in your oasis of calm.

PRICE: **£1299.99**

For more information on this model please visit our website. To order, please call us on **01423 522 222**

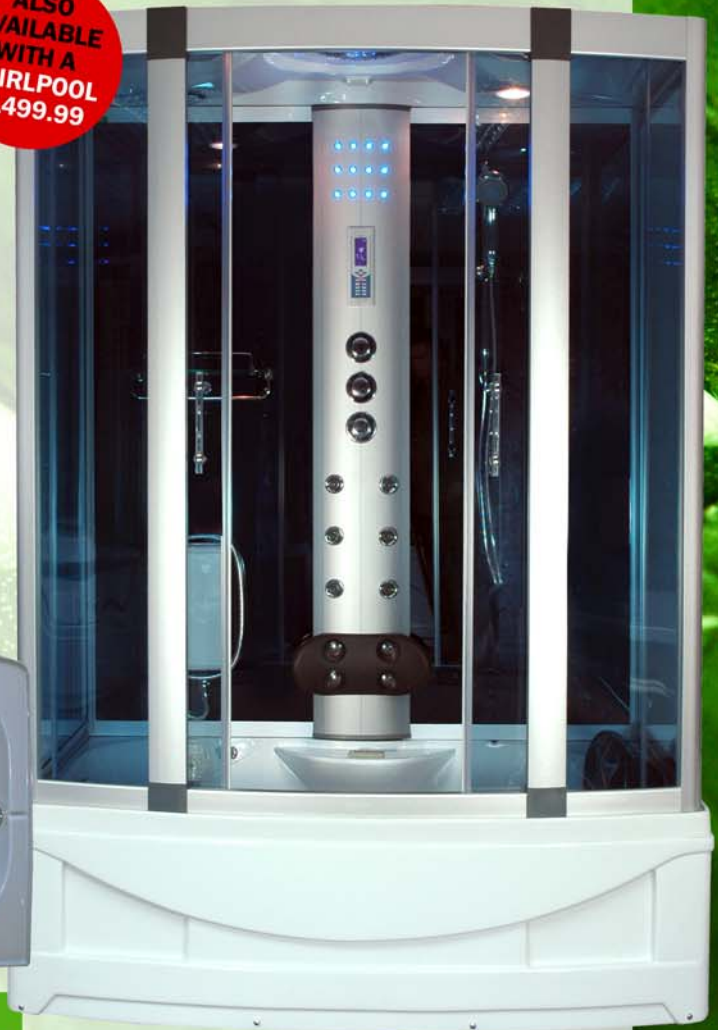

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impellor pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings. Two 13 amp fused spur connections are required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety. Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Avondale 1500 is also available without whirlpool option
