

steam shower

Caloosa

1100mm x 1100mm x 2150mm

The Caloosa is a very stylish steam shower that is sure to make a statement wherever you choose to install it. With a near full circle base and beautifully curved clear glass walls, door, roof and shelf, you can appreciate the curves and elegant control panel. The back control panel is a one piece moulded section, which is ergonomically shaped to accommodate your body as you use the body jets and also has a built in seat. The shower has an electronic control pad, that allows you to control the lights, radio and steam. You can even connect your MP3 player for more personal music listening.

PRICE: £1049.99

For more information on this model please visit our website. To order, please call us on **01423 522 222**

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impeller pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety.

Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Electronic Control Pad. Easy to use, fingertip control of your showers functions. Turn on the shower lights, tune the radio, retrieve stored stations or even connect your MP3 player for more choice. Choose your steam settings; duration and cabin temperature.
