

steam shower

Everglade 1100

1100mm x 1100mm x 2240mm

The Everglade 1100 is an 1100mm x 1100mm quadrant steam shower cabin. The Everglade series builds on the success of the Orlando with the same great showering features inside. Outside the exterior uprights with lights are replaced and inside is a twin shampoo/conditioner dispenser - a great way to keep them close to hand and easier to use! The Everglade 1100 offers a larger capacity inside, with the tub base making a mini bath, ideal for small children or feet soaking, with its pop up waste. This model is also available in 1000mm quadrant version.

PRICE: **£1199.99**

For more information on this model please visit our website. To order, please call us on **01423 522 222**

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impeller pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety.

Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Dispenser. Some of our steam shower are fitted with soap/shampoo/conditioner dispensers. This provides a convenient place to store much used showering liquids - no more fumbling for bottles, just press to dispense!

The Everglade 1000 is also available 1000mm x 1000mm
