

steam shower

Orlando Classic

1050mm x 1050mm x 2180mm

The Orlando Classic 1050 is a corner steam shower cabin, based on the popular 900mm version. Its features include huge 25cm monsoon rain shower, hand shower with riser, back jets and of course powerful 3kw steam generator. The Orlando has low voltage roof light, and interior and exterior LED lights too. The back inside walls of the cabin are darkened mirror glass and create a truly luxury feel against the crisp white base and metal frame. The Orlando Classic 1050 is ideal for those looking to replace a standard shower enclosure with something a little bigger, packed with great shower functions and at a realistic price.

PRICE: **£1099.99**

For more information on this model please visit our website. To order, please call us on **01423 522 222**

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impeller pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety.

Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Steam Pod. The steam generator produces clouds of steam that enter the cabin from the steam pod. You can put Aromatherapy products into the tray of the pod and infuse the steam - ideal for relieving the effects of colds.

The Orlando Classic is also available as 900mm x 900mm
