

steam shower

Orlando Premium

900mm x 900mm x 2210mm

The Orlando Premium is a NEW model in the already very popular Orlando series. The Premium has all the same great features of the Deluxe version but with a brand new all glass, glossy black control panel featuring touch sensitive controls. The display is touch sensitive, simply pressing gently on the glass over the buttons allows you to tune the radio, select the MP3/CD source, control the lighting, steam and all the other great features in this fabulous steam shower cabin. For those wanting the convenience of a 900mm quadrant shower the Orlando Premium certainly ticks all the boxes and looks GREAT too!

For more information on this model please visit our website. To order, please call us on **01423 522 222**

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impellor pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety. Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Hand Shower. All Bathtek Steam Showers are fitted with a multi jet hand shower, that allows you to choose the type of spray you want when showering. Choose from a powerful focused blast through to a gentle spray simply by rotating the shower head.

Choose from five different models in the Orlando series
