

steam shower

Pinebrook

900mm x 900mm x 2210mm

The Pinebrook is a popular steam shower cabin perhaps because of its amazing low price, but the Pinebrook still has all the great features of larger and more expensive steam showers. The Pinebrook has a 15cm Monsoon rain shower, foot massager, hand shower and back jets, to name but a few of the features. The unit has roof light, and interior LED lights too, FM Radio with MP3 input and control panel. The back inside walls of the cabin are acrylic and have a large mirror and shelf integrated. The front glass and doors are clear glass.

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impellor pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety.

Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed

installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Foot Spa. Revitalise your aching feet with stimulating jets of warm water whilst the dimpled rollers massage and soothe.
