

steam shower

Pinecrest

950mm x 950mm x 2200mm

The Pinecrest is a NEW model from Bathtek. This steam shower has an attractive capsule shaped design, which disguises its true 950mm corner aspect with smooth clean curves. Inside the Pinecrest are 10 body jets, mirror and three shelf areas for you shampoo and gels. The Pinecrest has a comfortable spacious seat with neat storage integrated for the foot massager. The Pinecrest is finished in a neutral all white acrylic back section, roof and tray, and the frame is white also. The Pinecrest has an FM radio with MP3 connection facility so you can enjoy your favourite radio station or music tracks as you bathe.

For more information on this model please visit our website. To order, please call us on **01423 522 222**

This steam shower requires between 1 and 3bar of water pressure and can be supplied from a combi boiler, pressurised system etc. For gravity fed or low pressure, installing a twin impellor pump is recommended. Where water pressures are not balanced (of equal pressure) fitting a Pressure Equalising Valve is required to protect the Thermostatic Valve from damage. Our showers are designed to be freestanding, water should be made available to the shower into the corner (if corner fitting) or central at the back (if the shower fits against one wall) and be fed to a point approximately 1mtr from the floor and finished ready for 15mm compression fittings.

A single 13 amp fused spur is required to provide electricity to the shower. The shower is supplied with an RCD fitted for your safety. Bathtek showers are supplied ready to build. All boxes are able to enter through regular doorway openings, details of carton sizes are available on our website. Please also consider access for the boxes up and round stairwells etc. For full, detailed installation requirements of all Bathtek showers, please call our customer service department on 01423 522 222 or visit our website at www.bathtek.com

The Hand Shower. All Bathtek Steam Showers are fitted with a multi jet hand shower, that allows you to choose the type of spray you want when showering. Choose from a powerful focused blast through to a gentle spray simply by rotating the shower head.

We have a steam shower to fit most bathrooms and en-suites
